"TeraPlast is a Romanian entrepreneurial product that got to where it is today based on the vision of the majority shareholder, supported by the other over 13,000 shareholders and implemented by over 900 colleagues to produce an accelerated development model. TeraPlast is a mirror of the Romanian economy, with ups and downs, but with long-term orientation and resilience in difficult times. The listed company status facilitated our increase in turnover from RON 219 mn in 2007 to RON 711 mn last year and in assets from RON 170 mn to almost RON 700 mn. We invested almost RON 800 mn, money that we chose not to distribute as dividends, but to use for building our future, transforming from a provincial company into the largest polymer processor in Central and South-Eastern Europe. We will continue to grow rapidly and expand, both in Romania and abroad", stated Alexandru Stănean, CEO TeraPlast.
